

ki·net·ic | kə-ˈnet-ik, kī- | adjective : of or relating to the motion of a body, and the effects of forces and energy that originate within or outside of that body.

New Leaf Kinetic Arts

Turn over a new leaf . . .

Our clinic specializes in Sports, Deep Tissue, Postural and Muscular Rehabilitation.

RMT's are an integral and important part of any medical team. The focus of their work is on the musculoskeletal system, which is essential to the rest of the body, affecting the skeletal, lymphatic and circulatory systems.

We are a group of professional and dedicated practitioners, and believe it is our responsibility to provide consistent, quality treatment, and to inspire our patients to feel both confident and informed enough to reach their treatment goals. As a patient of Massage Therapy and Acupuncture, you are taking a valuable step towards your health!

Now Open!
